

## False and Malicious Internet Posts/Scrapes by RSS.com

[www.RSSing.com](http://www.RSSing.com) is a "RSS feed scraper." RSS scraping is one of the most common and most frustrating types of content theft that bloggers and other site owners will face as they grow their presence online. It is a tactic used by spammers, who not only are able to exploit the content for search engine gains, but are also among the most despised infringers online. I have published a number [Letters-to-the-Editor](#) in various Alberta papers, all closing with authorship by **Carman Bradley Calgary**. It was recently discovered RSSing.com has misleadingly linked Google search for "Carman Bradley Calgary" to numerous kenney147.rssing.com posts (see below).

The screenshot shows a Google search for "carman bradley calgary". The search results display eight images, each with a caption: "Jason Kenney - Calgary Her...", "kenney147.rssing.com". The images include: 1) Jason Kenney at a podium with a sign that says "JOBS ECONOMY PIPELINES"; 2) A profile view of Jason Kenney; 3) Two portraits of Jason Kenney; 4) Jason Kenney with a sign that says "Scrap the Carbon Tax"; 5) A close-up portrait of Jason Kenney; 6) Jason Kenney with a group of people in a factory setting; 7) A map of AirDrie; 8) Another map of AirDrie.
